

PAPER PENGUINS

YOU'LL NEED: CONSTRUCTION PAPER, SCISSORS, GLUE STICK OR TAPE, MARKER, GOOGLE EYES (OPTIONAL)

- You'll need several shapes to make this simple penguin: a **BLACK CIRCLE**, a **WHITE CIRCLE**, a **HEART** that's a little smaller than the circle, a **TRIANGLE** that's very small, and **2 HALF CIRCLES** that are very small.

- GLUE** the black circle to the white circle so they line up right on top of each other. On the white side, you can write your name, draw a picture, or write out a message for someone special.
- GLUE** the heart on the middle of the circle. That's your penguin's belly! Now you can add a triangle beak, and 2 half circle flippers, and use google eyes or draw some on.
