

SIMPLE RABBIT ORIGAMI

YOU'LL NEED: A PIECE OF PAPER, SCISSORS, MARKER

CUT a square piece of paper as the base.

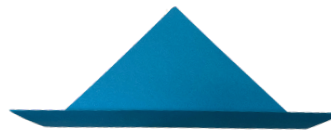

FOLD the paper like in the pictures below to make a three-dimensional paper bunny to celebrate Year of the Rabbit!

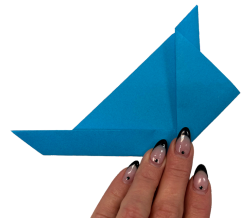

Start with a square

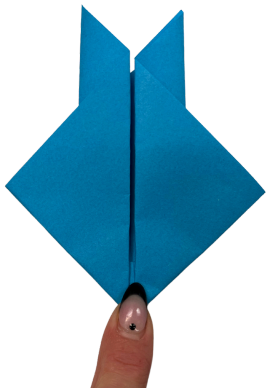

Fold the bottom point towards the top point

Fold a small flap up from the bottom

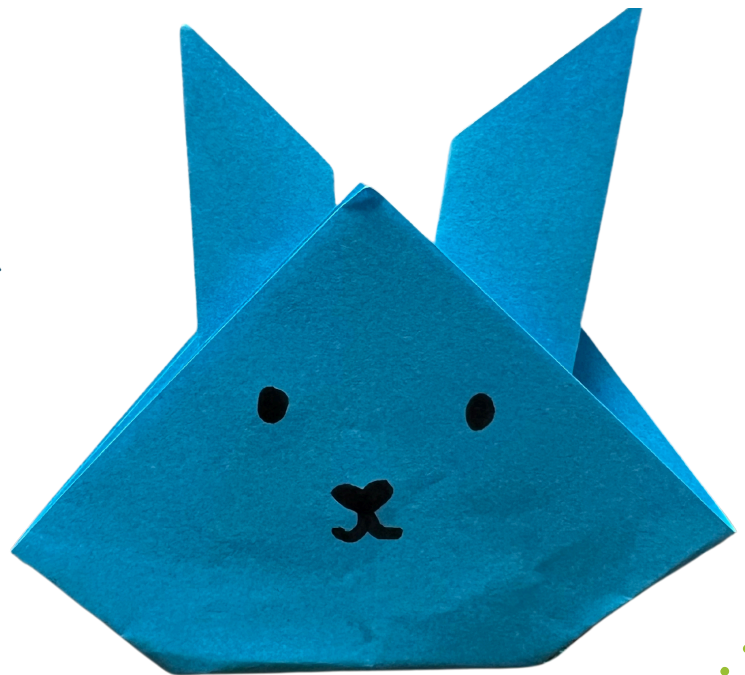

Fold the right bottom corner up to meet the center top point

Do the same with the left corner

Fold the bottom point up to make a bunny tail

DRAW on a face on your bunny to finish, and use the tail fold on the back to help your bunny stand up.
