

Star Wars Crafts!

YOU'LL NEED: PAPER, MARKERS, PAINT, CRAYONS, PAPER BAG, PAPER PLATE, GLUE OR TAPE, SCISSORS

1. CHEWBACCA PUPPETS

- Decorate a brown paper bag to look like a Wookiee's fur. Use construction paper to cut out a belt, teeth, eyes, and a nose.
- The folded part of the bag will be Chewbacca's face- tape or glue the decorations onto your puppet.
- When you put your hand inside, you make Chewie talk!

2. DEATH STAR RESIST PAINTING

- Cut a circle out of a piece of paper. Draw the design of the Death Star on your circle using a white crayon--the crayon won't show up yet!
- Use dark watercolors to paint over your drawing. The areas with crayon will **resist** the paint, so your drawing magically appears! What else can you make using the resist technique?

3. PAPER PLATE PORGS

- To make this grumpy creature, start by folding each side of the plate in towards the middle. Then, fold the point at the top down, over the wings, and then glue them in place. Every porg will look a little different- and that's great!
- Paint your porg, leaving the belly white. Cut eyes, legs, and a mouth out of paper, and tape or glue them onto your porg!
