

YARN WRAPPED FOXES!

MATERIALS: PAPER TUBE, CONSTRUCTION PAPER,
POMPOMS, SCISSORS, GLUE

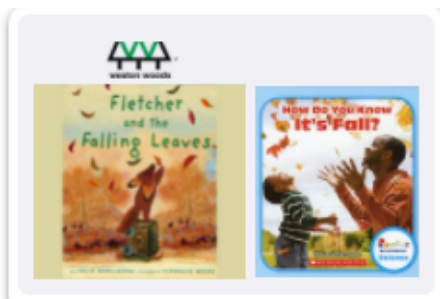

- Have a grownup help you **CUT** a triangle shape out of cardboard.
- **TAPE** the end of a piece of yarn to the triangle. Then, start **WRAPPING** the yarn around and around the triangle.
- Make sure to pull your yarn tight so that it stays in place, and try going in lots of different directions. Some might work better than others- you can always go back and wrap again if a piece slips- there is no wrong way to play with your yarn!
- You can trim the yarn and tape it down any time, and start a new piece. Keep wrapping until your fox is as colorful as you want them to be!
- **CUT** two **TRIANGLES** for ears.
- Glue or tape on the ears, two eyes, and a round fox nose.
