

## B is for Books Book!

YOU'LL NEED: CONSTRUCTION PAPER, PLAIN PAPER, SCISSORS, GLUE, COLLAGE MATERIALS

COLLAGE IS A TYPE OF ART THAT USES BITS OF PAPER AND CUT-OUT IMAGES TO MAKE SOMETHING NEW. FOR THIS COLLAGE PROJECT, WE'RE MAKING A BOOK OF B-SOUND THINGS!

- Start by GLUING 1 piece of white paper on top of your construction paper. Put 1 or 2 more pieces of white paper on top, and then FOLD all of them in half like a sandwich. If you want to make your book really secure, you can add a staple along the fold.
- Use the folded side of your paper as the long side of the B, and DRAW a letter B onto the paper. Then CUT out around the round parts of the B. Now you have a small B-shaped book!

- You can fill your book with whatever you'd like- but here's a fun idea! Try drawing, looking through magazines and newspapers for things that start with the letter B! Practice sounding them out, then add them to your book.
  - Don't worry if you're not finding that many things that start with B. You can also get creative! For example, I put things in my book in COLORS that start with B...can you think what that might be? I also put a picture of playing in the snow...because it made me think BRR!
  - See if your family and friends can guess why you added all the pictures to your book!
