

Garden Painting!

YOU'LL NEED: PAPER, SCISSORS, BROWN PAINT, GLUE, BUBBLE WRAP/NEWSPAPER/SPONGE (TEXTURE TO PAINT WITH)

- **DRAW** out some vegetables that grow underground!
- Can you think of any?

- **CUT** out your veggies (and stems if they have stems!) You can color on white paper or cut shapes out of colored paper.
- **GLUE** your vegetables onto your garden! "Plant" them in a **HORIZONTAL** line across the middle of the paper- just like the row of a garden! You'll **BURY** your veggies in the soil using paint. Where should the soil start?
- Have your grownup put some brown paint onto a paper plate or scrap paper. Use something with **TEXTURE** to paint dirt onto your garden! Some fun things to try might be scrunched up newspaper, a sponge, a Lego block, or even the wheels of a toy car!
- What else might you use to decorate your garden? Are there any critters who might come visit? Happy planting!
