

# Silly Face Props!

YOU'LL NEED: CONSTRUCTION PAPER OR CARDBOARD, GLUE OR TAPE, SCISSORS, CRAFT STICKS, MARKERS OR CRAYONS

**PROPS ON STICKS ARE A GREAT WAY TO MAKE ANY PHOTO FUNNY! USE THESE OR MAKE UP YOUR OWN DESIGNS, THEN TAKE FUNNY PICTURES! DON'T FORGET TO HAVE YOUR GROWNUPS POSE, TOO!**

- First, figure out what prop you want to use. We've given you a couple ideas- you can cut them out, or use them like a **STENCIL** to draw your own.
- No matter what object you're drawing, make sure it will fit on someone's face. It needs to be not too big, and not too small! That's called **PROPORTION**.
- Once you've got your design, cut it out. If you're using regular paper, you might need to tape or glue it to cardboard, to help it stand when you hold it.

- **DECORATE** your props! If you cut out a crown, you can add paper shapes, stickers, or gems. If you cut out a tail, you might want to add stripes. If you cut out a wizard's hat, maybe you want to add some stars and moons.
- Once your prop is ready, tape a craft stick to the back, making sure it's right up against one of the side edges. That way, when you hold it up to your face, you'll see yourself with a funny addition. Enjoy!
