

PAPER AIRPLANES

YOU'LL NEED: PAPER, SCISSORS, GLUE, MARKERS

- **CUT** a rectangle shape to be your background sky.
- **CUT** some cloud shapes to glue onto the sky- try using the **CORNER** and cutting some curved parts around it.
- **CUT** one **LONG** strip of paper, one **MEDIUM** strip of paper, and one **SHORT** strip of paper.

- **FOLD** the long piece into a loop and glue the ends together- this is the body of your airplane.
- The long strip will be the wings and the shorter strip will be the tail- cut and fold them how you'd like, then glue onto the plane.

- **ADD** a face to your plane if you'd like, and decorate your sky with clouds or birds.
