

# Unicorn Wands!

YOU'LL NEED: PAPER, STRAW, SCISSORS, TAPE OR GLUE

First, **DRAW** a unicorn shape on your paper. We used marbelized paper because it's really colorful, but you can use any paper you have on hand. You'll need a unicorn's head shape, plus a skinny triangle to be a horn.

Next, **CUT** out your shapes, and glue or tape the horn onto your unicorn. On the neck part of your unicorn, **CUT two 1/2 inch parallel slits**. That's where the straw will go.

Add a fun mane using small strips of paper, curled ribbon, or yarn. **TAPE** your mane to the back of your unicorn.

When your unicorn is finished, slide the straw through one slit, then the other to make it into a wand.

**Have a magical day!**
